NARRATIVE

On February 13, 2021, at approximately 1238 hours, I responded to Arts and Letters (Bldg. 9) tunnels located within the Florida Atlantic University (FAU) campus in Boca Raton in reference to the tunnel alarm being prompted.

Upon arrival, the individual was no longer on the scene.

The individual was later identified as FAU commuter student Johnathan Shelley. On February 17, 2021, at approximately 0950 hours, Shelley was contacted via telephone and advised to meet me at the FAU police department lobby.

At approximately 1130 hours, Shelley arrived at the FAU PD. Shelley advised that he indeed was the individual seen walking through the tunnels and stated he entered the tunnels out of curiosity. Shelley stated the door of bldg. 52 RM 122 Substation was locked; however, it was unsecured due to the door being faulty. Shelley stated by simply pulling on the door, he was able to gain entry. Shelley stated there was a metal floor door passageway with an orange ladder going down to the tunnels, which he climbed down to gain entry into the tunnels. Shelley then stated he walked through the tunnels and then exited out of Bldg.9 RM 145.

Shelley escorted me to Bldg. 9 to show me exactly what entryway he used to access the tunnels. Photographs of the doorways were taken and attached to this report. Shelley assured me that this was the first time he had entered the tunnels.
